

Our month in pictures:

What's happening next month:

Birthdays:

Paula, Christopher & Jean-Luc

HERE'S THE NEWS

PP4

Literacy:

We have begun copying from the blackboard and using copy cards in our books to practice our handwriting.

The children have continued to learn phonics with rules and are now doing comprehension weekly.

Children are now working on more complex creative writing topics, and are doing really well at them. They are making sentences too.

Numeracy:

Children have begun doing measurement using inches and will soon go into centimetres.

They have also been counting in 2s and 3s.

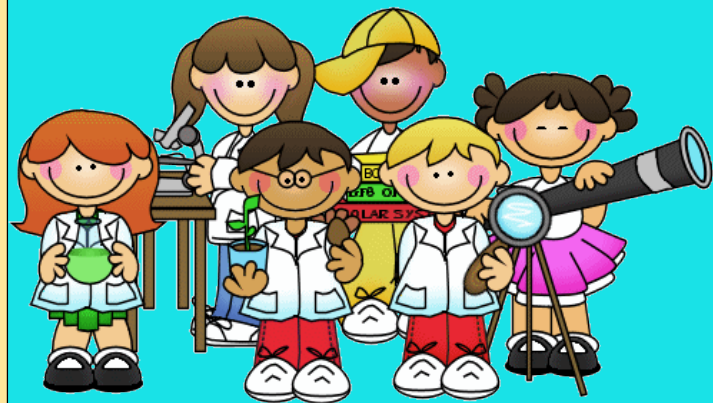

We have continued number names to twenty and have reviewed subtraction and addition.

Science:

For science the term, we will be looking at LIGHT and DARK.

We have looked at sources of light and looked at shadows this month.

The children are really enjoying this topic as we are learning about where light comes from, and things you see in the dark. They wrote a few sentences as why they are afraid of the dark as one of the follow-ups.

Project:

Our project this term is MUSIC. So far we have looked at the definition of music, types of music and the feelings music evokes in us.

We have also just began looking at instruments and have covered string and percussion instruments.
